

Vision and Values – Creativity, Integrity, Persistence

The Creative Challenge – Leading and Learning Together

The annual Vision and Values night will launch on Wednesday 2 September 5pm, continuing the tradition of bringing the Balwyn High School community together in celebration of 'Creativity, Integrity, and Persistence'. Certainly, this year's theme resonates with the current climate and provides the foundations for a highly engaging presentation, led by the Student Services Team, including the Wellbeing Captains and Ambassadors.

Throughout the presentation we will acknowledge the achievements and leadership of members of the Balwyn High School community in 2020 through COVID-19 and the remote learning period. Moreover, reflections from the wider community around the opportunities sought through the unprecedented year, will form the basis of a discussion around vulnerability, growth mindset and positive wellbeing.

Guest speaker, positive psychology researcher, author, organisational leader, coach and critical friend of Balwyn High School, Dr. Paige Williams will also present on the positive impact of understanding fragility and vulnerabilities in order to seek opportunities in the current climate.
